

Project Ideas

Helpful Travel Application:

Application where user can get ideas/inspiration for places to travel based on input such as date range, price range, climate preferences, etc.

Pick-Up Sports Application:

Application where users can find local sports pick-up games based on input such as time, location, and sport.

Sign Language Interpreter Application:

Application that makes getting accommodations easier for deaf/hard-of-hearing people such as having access to an interpreter over the Internet or making use of a typewell.
