

Team Name: Scrum Lords

Member Name: Kexin Pan

Team Project Title: Pick Up Sports App

Sprint Number: 1

Dates for Sprint: 2/13/2019 – 2/26/2019

User Stories Team Project (18*2 points for Sprint 1, otherwise 21*2 points. Add rows as needed)

PBI ID	Task ID	User Story or Task Description	Effort	Completion Points
114		As a user, I would like to be able to login just using my email and a password I create so that I don't have to have a Google account	55	
	115	Fully enable Individual User Accounts	7	
	116	Copy SQL schema from an existing ASP.NET Identity database and integrate it into our UP script	5	
	117	Configure web app to use our db with Identity tables in it	5	
	118	Create Contact table	7	
	169	Set up DbContext for Contact table	5	
	119	Enable Captcha	17	
	176	Create controller for Contact	3	
	177	Create context models/configuration for Contact table	6	
120		As a user, I would like to be able to login with Google so I don't have to create separate accounts to use the website	34	
	165	Implement Google Sign On	34	
Total Effort Points				

Backlog Refinement and Grooming / Next Sprint Planning Score _____ (8 points)

Attach printout of the next Sprint backlog. If User Stories are added or removed by the Sprint Review meeting then you may not count them and will lose points. Adding a new Task for an existing user story is OK, but all tasks must add up to their parent user story which must be in the Sprint prior to its start. **PLAN FOR YOUR SPRINTS BEFORE THEY BEGIN!**
